Weekly Lesson Plans:

- Static stations stay the same all year. Students work on their goals using the same groups/types of materials. List the static stations in the left-hand column. Write student initials across the top row. Use the academic abbreviation key to document which goal(s) the student is working on at each static station. Refer to student goal sheets to see which goals are associated with each academic subject. Refer to station descriptions and individual student schedules to see detailed explanation of each station and when each student is at that station..
