WHY SHOULD WE USE The Autism Helper CURRICULUM?

Special education teachers are tasked with the difficult job of providing quality instructional opportunities for an extremely wide range of types of learners. The key to success is having access to differentiated resources, a system for how to utilize these materials, and a path towards goal mastery.

The Autism Helper Curriculum is available in up to 6 levels and spans 7 subject areas. This curriculum can cover the instructional needs for students working on early childhood and elementary level skills and is age appropriate for older learners. Curriculum Access is for schools to give their special education classrooms a method for achieving academic success.

"The staff who have used
Curriculum Access have reported
that they are pleased!"

- administrator from Illinois

LEARN ABOUT OUR CASE STUDY

Easy implementation

- Easy to navigate website, short training videos, clearly written out implementation guides.

In Depth Support

- Curriculum Access provides each teacher with guidance and training on how to effectively utilize the curriculum to meet the needs of their unique learners.
- Curriculum Access subscribers will also get access to our exclusive community to collaborate with other educators on best practices and ideas for use.

"I love how it covers grade-level material in a way that the student can really grasp and understand. I am excited for more and more levels to come!"

- teacher in Arkansas
